

Unit 1 Assignment

Step 1:

Print the blank map of North America.

- In black, outline the political boundaries of Canada's provinces and territories as they look, today. Do not shade or colour. Label each province and territory.
 - [Canada today](#)
- Now, using a different colour, outline the political boundaries of British North America's 8 colonies as they looked in 1825. **NOTE** that some of these colonies dipped into what is now the western USA (it wasn't the USA in 1825). Be sure to include all of the colonial territory in your map. Label the colonies in the same colour as the borders.

Step 2:

Briefly answer the following Geography questions:

1. Which colonies/ provinces have mountains?
2. Which have a fishing industry?
3. Which modern provinces were part of Rupert's Land?

Once you complete both steps of the assignment, please send it to the email listed on the "Social Studies 10" course homepage.
